George Lin

Rookie developer in learning

I majored in physics in college, and started coding when simulating physics phenomena. I started learning data science in the fourth year of college, writing more code. In my coding time, I started to interest with web technology. Now, I am focus on frontend.

工作經歷

junior researcher • DT42

十一月 2018 - 四月 2020

responsible for data and AI related projects. support other projects sometimes.

學歷

2014 - 2018

National Taiwan University

Department of Physics

技能

Programming language

- python
- javascript

Library

- pandas
- react
